INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/SE 20004/001842

Box	No. I	Basis of the report
1.	otherwi	gard to the language, this report is based on the international application in the language in which it was filed, unless se indicated under this item.
		This report is based on a translation from the original language into the following language, which is the language of a translation furnished for the purposes of:
		international search (under Rules 12.3 and 23.1(b))
i '	•	publication of the international application (under Rule 12.4)
		international preliminary examination (under Rules 55.2 and/or 55.3)
2.	furnish	egard to the elements of the international application, this report is based on (replacement sheets which have been ed to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and annexed to this report):
	\boxtimes	the international application as originally filed/furnished
١.	同	the description:
•		pages as originally filed/furnished
		pages* received by this Authority on
		pages* received by this Authority on
		the claims: as originally filed/furnished
		pages as originally interstallments as amended (together with any statement) under Article 19
		pages"
		ited by this Authority on
		•
		the drawings: as originally filed/furnished
		pages on
	•	pages* received by this Authority on
		a sequence listing and/or any related table(s) – see Supplemental Box Relating to Sequence Listing.
3.		The amendments have resulted in the cancellation of:
	٠.	the description, pages
		the claims, Nos.
		the drawings, sheets/figs
		the sequence listing (specify):
		any table(s) related to the sequence listing (specify):
4.		This report has been established as if (some of) the amendments annexed to this report and listed below had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Ru 70.2(c)).
		the description, pages
		the claims, Nos.
1		the drawings, sheets/figs
		the sequence listing (specify):
		any table(s) related to the sequence listing (specify):
	' If ite	m 4 applies, some or all of those sheets may be marked "superseded."

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/SE 20004/001842

Box No. V	Reasoned statement un citations and explanati	der Article 3: ons supportin	35(2) with regard to novelty, inventive step or industrial applicability; ing such statement	
1. Statemen		· ·		
	velty (N)	Claims Claims	1-11 YE	
Inve	entive step (IS)	Claims Claims	1-11 Y	ES O
Ind	ustrial applicability (IA)	Claims	1-11	ES IO

2. Citations and explanations (Rule 70.7)

Document cited in the International Search Report:

D1: US 4017342 A

The cited document represents the general state of the art. The invention defined in claims 1-11 is not disclosed by this document.

The cited prior art does not give any indication that would lead a person skilled in the art to the claimed method of improving the burn rate and ignitability of aluminium fuel particles by treating the particles with an aqueous solution of hydrofluoric acid and a fluoride and/or complex fluoride of an alkali metal and/or alkaline earth metal and also a thus modified aluminium fuel. Therefore, the claimed invention is not obvious to a person skilled in the art.

Accordingly, the invention defined in claims 1-11 is novel and is considered to involve an inventive step. The invention is industrially applicable.
